We've got you covered!

ZAKKERNE is a simple, powerful and first web-based software application in the middle-east that manages your company's vital expiry documents.

It reminds you to renew on time & keep track of the expiry dates through an automated alert system having an advanced dashboard & reports.

KEY FEATURES

Powerful & Up-To-Date Dashboard

A very powerful dashboard that gives you visibility and insight to all your documents. It automatically and securely connects to your data in real-time and stays updated.

Automated Expiry Reminders

We never let you forget any document that is due for renewal! Feel free to add multiple reminders for your documents prior to their due date. Renewal notifications can be sent via Email, SMS and Pager and shared with multiple recipients like your Employees, Vendors, Clients or End-Users.

File Attachment

No more searching through your files or emails to find the documents you need! ZAKKERNE allows you to attach multiple files making it easier for you to find and view them anytime you need to.

Employee Information System

ZAKKERNE can be used by your HR department as it can help in managing their employees' job contracts, passports, visas, profile data, cost center, position, department, etc. It also helps the HR in getting reminders to renew employees' expiring documents, keep track of their annual leaves & increments.

Document Management System

A single application that allows you to manage, store and control unlimited types of contracts and documents which can be easily found and accessed thanks to our online storage.

Multiple Users

ZAKKERNE offers one of the most advanced user control system. You can create and add multiple users with access restrictions managed by the administrator who can invite, block and edit them on demand.

Cloud Storage

All your data and documents are securely stored on the cloud which allows you to access and view them anytime you want and from any device!

Smart Reports

User can customize, create and download a variety of reports available in order to review all expired documents or to forecast upcoming expirations.

WHY ZAKKERNE?

SIMPLE, POWERFUL and AFFORDABLE!

ZAKKERNE has a very simple and easy-to-use interface which doesn't require any technical background. It is also affordable and you can easily acquire it with no need to spend on technology infrastructure or any capital cost.

Improve your Business!

You will enhance the productivity of your business as it gives you the freedom to focus on the important aspects of your work rather than worrying about missing expiry dates of your vital documents

Save money!

Save time and money by easily managing all your documents expiry dates allowing you to reduce labor cost and to avoid paying heavy fines for missing contracts renewal dates or losing your warranty documents.
